

First Year

First semester

Compulsory courses

Semiology courses will be organized during the first week of term - André SCHEEN, Jean-Pierre BOURGUIGNON, Jacques BELAICHE, Michel MEURISSE, Philippe GILLET, Michel MALAISE, Jean de LEVAL, Renaud LOUIS, Gustave MOONEN, Jean-Michel FOIDART, Frédéric KRIDELKA.

Cardio-vascular module

PATH0142-2 *Pathology of cardiovascular system* - Oreste BATTISTI, Jacques BONIVER, 65 - - 7
Jean-Michel CRIELAARD, Vincenzo D'ORIO, Jean-Olivier DEFRAIGNE,
Robert DONDELINGER, Roland HUSTINX, Luc PIERARD, André SCHEEN

Module Pneumology

PATH0143-2 *anglais* - Oreste BATTISTI, Jacques BONIVER, Philippe COUCKE, Vincenzo D'ORIO, 61 - - 7
Jean-Olivier DEFRAIGNE, Robert DONDELINGER, Roland HUSTINX,
Philippe LEFÈBVRE, Renaud LOUIS, André SCHEEN

General Module

PATH1140-1 *General module* 3
- *Introduction à la médecine nucléaire* - Roland HUSTINX 3 - -
- *Éléments de radiodiagnostic et d'imagerie médicale (Partim I)* -
Robert DONDELINGER 7 - -
- *Radiothérapie (Partim I)* - Philippe COUCKE 3 - -
- *Introduction à la médecine générale* - Didier GIET 10 - -

Module Health and Society

SANT0141-2 *Health and Society Module 1* 3
- *Déontologie et organisation juridique de la médecine* - Christian BOUFFIOUX, 2 - -
Philippe BOXHO
- *Notions de déontologie* - Christian BOUFFIOUX, Philippe BOXHO 13 - -
- *Prescription et interprétation d'examens complémentaires* -
Jean-Pierre BOURGUIGNON, Renaud LOUIS, Michel MEURISSE, André SCHEEN 4,5 - -
- *Psychologie médicale* - Marc ANSSEAU, Bruno GEPNER 10 - -

MSTG0144-1 *Placement in medicine Part A* - COLLÉGIALITÉ - 72 - 3

MSTG0145-1 *Placement in medicine Part B* - COLLÉGIALITÉ - 72 - 3

MEDE0140-2 *Practical Work* 3
- *Medical imaging* - Robert DONDELINGER - 8 -
- *Pathology* - Jacques BONIVER, Albert THIRY 12 - -
- *General medicine* - Didier GIET - [12h Internship] - - [+]
- *Medical psychology* - Marc ANSSEAU 4 - -
- *Pharmacology* - André SCHEEN 6 - -
- *ARC* - COLLÉGIALITÉ - [28h ITCR] - - [+]
MEDE0144-1 *Training in clinical reasoning* - COLLÉGIALITÉ 10 - - 1

Second semester

Compulsory courses

Module Mother-Child

PATH0144-3 *Biology and pathologies of fetuses and new-born babies* - Jean-Michel FOIDART, 6 - [+]
Jacques RIGO - [13,5h APP] 2

Hematology-Oncology module

PATH0145-3 *Hematopoietic and oncological pathologies* - Oreste BATTISTI, Jacques BONIVER, 13 - - 5
Jean-François BRICHANT, Philippe COUCKE, Georges FILLET, Roland HUSTINX,
André SCHEEN

Infectology-Immunology-Rheumatology module

PATH0146-3 *Immunitary, articular and infectious pathologies* - Oreste BATTISTI, Jacques BONIVER, 13 - - 5
Jean-François BRICHANT, Roland HUSTINX, Michel MALAISE, Michel MOUTSCHEN,
André SCHEEN

Module Endocrinal Metabolism-Diabetes-System

PATH0147-3 *Immunitary, articular and infectious pathologies* - Albert BECKERS, Jacques BONIVER, 13 - - 5
Jean-Pierre BOURGUIGNON, Jean-François BRICHANT, Philippe COUCKE,
Robert DONDELINGER, Roland HUSTINX, Didier MARTIN, Michel MEURISSE,
André SCHEEN

Renal Module

PATH0148-3 *Main pathologies of the kidney* - Oreste BATTISTI, Jacques BONIVER, Robert DONDELINGER, Roland HUSTINX, Jean-Marie KRZESINSKI, André SCHEEN 13 - - 2

Dermatology module

PATH0149-2 *Pathology of the skin* - Oreste BATTISTI, Jacques BONIVER, Philippe COUCKE, Roland HUSTINX, Arjen NIKKELS - Suppl : Pascale QUATRESOOZ 13 - - 2

MSTG0146-1 *Placement in medicine Part C* - COLLÉGIALITÉ - 72 - - 3

MSTG0147-1 *Placement in medicine Part D* - COLLÉGIALITÉ - 72 - - 3

MEDE0141-2 *Practical Work* - 2

- *Medical imaging* - Robert DONDELINGER - 6 - -

- *Pathology* - Jacques BONIVER, Albert THIRY - 12 - -

- *Pharmacology* - André SCHEEN - 6 - -

- *ARC* - COLLÉGIALITÉ - [30h ITCR] - - [+]

MEDE0145-1 *Training in clinical reasoning* - COLLÉGIALITÉ 10 - - 1

Second Year

First semester

Compulsory courses

Module Digestion

PATH0152-3 *Stomatological and digestive pathologies* - Oreste BATTISTI, Jacques BELAICHE, Jacques BONIVER, Philippe COUCKE, Robert DONDELINGER, Roland HUSTINX, Thierry LAHAYE, Philippe LEFÈBVRE, Michel MEURISSE, Jacques RIGO, André SCHEEN 49 - - 6

Module Urology

PATH0153-3 *Urological pathologies* - Oreste BATTISTI, Jacques BONIVER, Philippe COUCKE, Jean DE LEVAL, Robert DONDELINGER, Roland HUSTINX, André SCHEEN 35 - - 6

Module Mother-Child

PATH0154-3 *Gynaecological and genetic pathologies* - Jacques BONIVER, Vincent BOURS, Philippe COUCKE, Robert DONDELINGER, Roland HUSTINX, Frédéric KRIDELKA, Jacques RIGO, André SCHEEN - Suppl : Nicolas JANIN 41 - - 6

Module Health and Society

SANT0152-1 *Module on health and society A* - 3

- *Médecine et environnement* - Philippe MAIRIAUX 7,5 - -

- *Principes généraux de Santé publique et d'économie de la Santé* - Jean-Yves REGINSTER 12 - -

- *Anthropologie philosophique des questions d'éthique médicale* - Vinciane DESPRET, 10 - -

Jean-Rémy VAN CAUWENBERGE

MSTG0154-1 *Placement in Medicine Part A* - COLLÉGIALITÉ - 84 - - 3

MSTG0155-1 *Placement in Medicine Part B* - COLLÉGIALITÉ - 84 - - 3

MEDE0150-2 *Practical work* - 2

- *Medical imaging* - Robert DONDELINGER - 8 - -

- *Anatomical pathology* - Jacques BONIVER, Albert THIRY - 12 - -

- *Anesthesia - Intensive Care* - Jean-François BRICHANT 12 - -

- *Anthropology* - Vinciane DESPRET, Jean-Rémy VAN CAUWENBERGE - 10 - -

- *Pharmacology* - André SCHEEN - 4 - -

- *ARC* - COLLÉGIALITÉ - [28h ITCR] - - [+]

MEDE0154-1 *Training in clinical reasoning* - COLLÉGIALITÉ 10 - - 1

Second semester

Compulsory courses

Neurology module

PATH0155-3 *Neurological pathologies, including genetic pathologies* - Vincent BOURS, Philippe COUCKE, Vincenzo D'ORIO, Manuel DEPREZ, Robert DONDELINGER, Roland HUSTINX, Didier MARTIN, Jean-Paul MISSON, Gustave MOONEN, André SCHEEN - Suppl : Nicolas JANIN 64 - - 7

Locomotive module

PATH0156-3 *Orthopaedic pathologies, incl. physical medicine* - Jacques BONIVER, Philippe COUCKE, Jean-Michel CRIELAARD, Robert DONDELINGER, Philippe GILLET, Roland HUSTINX, Jean-Paul MISSON, André SCHEEN 42 - - 5

Module Ophtamology-ORL

PATH0157-4	<i>Ophthalmological and oto-rhyno-laryngological pathologies</i> - Jacques BONIVER, Thierry LAHAYE, Philippe LEFÈBVRE, Jean-Marie RAKIC	21	-	-	2
------------	--	----	---	---	----------

General Module

PATH0159-2	<i>General module</i>				3
	- <i>Pathologie et thérapeutiques chirurgicales générales</i> - Jean-Olivier DEFRAIGNE	16,5	-	-	
	- <i>Éléments d'anesthésie et d'analgésie</i> - Jean-François BRICHANT	8,5	-	-	
	- <i>Gériatrie</i> - Jean PETERMANS	5	-	-	

Module Health and Society

SANT0153-2	<i>Health and Society Module B</i>				4
	- <i>Médecine légale</i> - Philippe BOXHO	15	-	-	
	- <i>Pathologies psychiatriques</i> - Marc ANSSEAU	24	-	-	
MSTG0156-1	<i>Placement in Medicine Part C</i> - COLLÉGIALITÉ	-	84	-	3
MSTG0157-1	<i>Placement in Medicine Part D</i> - COLLÉGIALITÉ	-	84	-	3
MEDE0151-2	<i>Practical works</i>				2
	- <i>Medical imaging</i> - Robert DONDELINGER	-	8	-	
	- <i>Pathology</i> - Jacques BONIVER, Manuel DEPPEZ	-	12	-	
	- <i>Pharmacology</i> - André SCHEEN	-	4	-	
	- <i>ARC</i> - COLLÉGIALITÉ - [30h ITCR]	-	-	[+]	
MEDE0155-1	<i>Learning in clinical reasoning</i> - COLLÉGIALITÉ	10	-	-	1

Optional free courses

PATH0151-1	<i>Neuroanatomy</i> - Gustave MOONEN	3	-	-	1
------------	--------------------------------------	---	---	---	----------

Third Year (perspectives 2009-2010)

Notice : The programme for the
3rd and 4th years will be decided
later.

Compulsory courses

CHIR0160-2	<i>Surgery</i>	-	9	-	1
MEDE0160-2	<i>Medicine</i>	-	7	-	1
PEDI0160-2	<i>Pediatrics</i>	-	9	-	1
GYNE0160-2	<i>Gynecology and obstetrics</i>	-	3	-	1
MEDE1162-1	<i>Integrated and therapeutic clinics</i>				10
	- <i>Therapy</i>	60	-	-	
	- <i>Integrated clinics (13h Surgery, 14h Medical, 11h Paediatrics, 7h Obstetrics and Gynecology, 7h ambulatory medicine, 11h pathology)</i>	-	63	-	
MTFE0160-1	<i>Travail de fin d'études</i>	-	-	-	11
Compulsory Training					
For the 3rd year of the masters					
MSTG0001-2	<i>Internal medicine</i>				15
	- <i>Part I : 1st month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part II : 2nd month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part III : 3rd month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part IV : 4th month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part V : 5th month of placement</i> - [1mois Internship]	-	-	[+]	
MSTG0002-2	<i>Surgery</i>				15
	- <i>Part I : 1st month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part II : 2nd month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part III : 3rd month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part IV : 4th month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part V : 5th month of placement</i> - [1mois Internship]	-	-	[+]	
MSTG0003-2	<i>Paediatrics</i>				10
	- <i>Part I : 1st month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part II : 2nd month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part III : 3rd month of placement</i> - [1mois Internship]	-	-	[+]	
	- <i>Part IV : 4th month of placement</i> - [1mois Internship]	-	-	[+]	
MSTG0004-2	<i>Gynaecology and Obstetrics</i>				5

	- Part I : 1st month of placement - [1mois Internship]	-	-	[+]	
	- Part II : 2nd month of placement - [1mois Internship]	-	-	[+]	
	- Part III : 3rd month of placement - [1mois Internship]	-	-	[+]	
MSTG0005-2	<i>Psychiatry</i>				5
	- Part I : 1st month of placement - [1mois Internship]	-	-	[+]	
	- Part II : 2nd month of placement - [1mois Internship]	-	-	[+]	
	- Part III : 3rd month of placement - [1mois Internship]	-	-	[+]	
<p><i>Notice</i> : In the context of compulsory internships, students must carry out at least 3 months internal medicine (out of 5), 3 months surgery (out of 5), 2 months pediatry (out of 4), 1month obstetrics and gynecology (out of 3) and 1 month psychiatry (out of 3) to be eligible for deliberation.</p> <p>For internal medicine, students can carried out 1 month internship in the emergency department.</p> <p>For surgery, students can carried out 1 month internship in the Neurosurgery department.</p>					
For the 4th year of the masters					
MSTG0010-2	<i>Hospital placements</i>				15
	- Part I : 1st month of placement - [1mois Internship]	-	-	[+]	
	- Part II : 2nd month of placement - [1mois Internship]	-	-	[+]	
	- Part III : 3rd month of placement - [1mois Internship]	-	-	[+]	
	- Part IV : 4th month of placement - [1mois Internship]	-	-	[+]	
	- Part V : 5th month of placement - [1mois Internship]	-	-	[+]	
	- Part VI : 6th month of placement - [1mois Internship]	-	-	[+]	

Optional free courses

AUTO0160-2	<i>Demonstrations of autopsies (except the nervous and muscular system)</i>	170	-	-	-
AUTO0161-1	<i>Demonstrations of autopsy: partim nervous and muscular system</i>	30	-	-	-
PVDE0160-1	<i>Tropical Diseases</i>	30	60	-	-
KINE0160-1	<i>Practical Physiotherapy Demonstrations</i>	-	-	-	-
SANG0160-1	<i>Blood groups and transfusion</i>	10	15	-	-
STAT0160-1	<i>Introduction to statistics applied to medicine</i>	15	15	-	-
MEGE0166-1	<i>General and family practice training courses - [120h Internship]</i>	-	-	[+]	-
MEGE0167-2	<i>ECG certificate</i>	-	20	-	2
MEGE1160-1	<i>Certificate in spirometry</i>	-	10	-	2

Professional Focus

Compulsory courses

MEDE0164-1	<i>Intégration des compétences</i>				7
	- Séminaires d'apprentissage à la résolution de problèmes complexes - [48h LBOPS]	-	-	[+]	
	- Médecine ambulatoire	-	4	-	
	- Médecine palliative et de fin de vie - [10h SEM]	10	-	[+]	
	- Analyse critique des pratiques non conventionnelles	10	-	-	
	- Questions d'éthique (conférences)	10	-	-	
	- Anatomie pathologique	-	7	-	

Optional courses

Choose one option from the following :

General practice

A specific complementary teaching certificate in general medicine is issued to doctors in medicine who can justify:

- * 12 months internship (see INTERNSHIPS section);
- * having participated in at least 160 hrs of classes out of the 200 hrs given and having passed the tests relating to the following courses:

MEGE1161-1	<i>Cours de médecine générale</i>				8
	- Aspects spécifiques du développement humain	-	40	-	

- Introduction générale à la médecine générale	-	40	-
- Aspects spécifiques de la pathologie et de la thérapeutique en médecine générale	-	40	-
- Aspects spécifiques de psychologie médicale	-	40	-
- Aspects sociaux de la médecine générale, partim : aspects administratifs et professionnels	-	20	-
- Aspects sociaux de la médecine générale, partim : aspects de société	-	20	-

To obtain the General Medicine specific complementary teaching certificate, students are required to do 12 months worth of internships during the 4th year of the masters degree.

MSTG0006-2	Placement in general medicine			15
	- Part I : 1st month of placement - [1mois Internship]	-	-	[+]
	- Part II : 2nd month of placement - [1mois Internship]	-	-	[+]
	- Part III : 3rd month of placement - [1mois Internship]	-	-	[+]
	- Part IV : 4th month of placement - [1mois Internship]	-	-	[+]
	- Part V : 5th month of placement - [1mois Internship]	-	-	[+]
	- Part VI : 6th month of placement - [1mois Internship]	-	-	[+]

Specialised Medicine

MEGE0169-1	Cours de médecine spécialisée			8
	- Contrôle des infections nosocomiales	20	-	-
	- Urgences hospitalières	8	-	-
	- Aspects administratifs et organisationnels de la médecine (Partims des cours dispensés au certificat complémentaire d'enseignement spécifique de médecine générale détaillés ci-dessus)	10	-	-
	- Travail personnel	-	40	-

Compulsory internships for the specialised medicine option

Pour se préparer à l'une des spécialités mentionnées ci dessous :

Anatomie et cytologie pathologiques ; Anesthésie-réanimation ; Biologie médicale ; Chirurgie ; Dermatologie ; Médecine interne ; Médecine nucléaire ; Médecine physique et Réadaptation fonctionnelle ; Neurochirurgie ; Neuropsychiatrie ; Ophtalmologie ; Obstétrique-Gynécologie ; Oto-Rhino-Laryngologie ; Pédiatrie ; Radiodiagnostic ; Radiothérapie ; Urologie et Médecine légale ; l'étudiant doit effectuer, outre les 10 mois obligatoires :

MSTG0008-2	Placements in preparation for specialisation			15
	- Part I: 1st month of placement - [1mois Internship]	-	-	[+]
	- Part II: 2nd month of placement - [1mois Internship]	-	-	[+]
	- Part III: 3rd month of placement - [1mois Internship]	-	-	[+]
	- Part IV: 4th month of placement - [1mois Internship]	-	-	[+]
	- Part V: 5th month of placement - [1mois Internship]	-	-	[+]
	- Part VI: 6th month of placement - [1mois Internship]	-	-	[+]

Following the agreement of a departmental head (clinical, preclinical or fundamental sciences) and the approval of the Board of Studies, a complete internship plan including 2 to 5 months research during the 3rd and 4th épreuves may be accepted. The file including the curriculum vitae of the interested party and the description of the research project must be submitted to the Board of Studies.

Access to one of the specialities, via the research option, depends on the person in charge of this speciality.

Training courses

Les stages des troisième et quatrième années de master s'étalent du 1er juillet au 30 juin de la deuxième année. Tous les étudiants doivent avoir une activité de stages dans les services cliniques et/ou de laboratoire ou de recherches de 21 mois minimum dont 16 mois minimum d'activités cliniques. Toutefois, pour accéder à la 4e année de Master, les étudiants sont tenus d'avoir effectué 10 mois de stages.

Les stages de clinique, policlinique ou de laboratoire (y compris les séminaires de service) concernent les disciplines suivantes :

Medicine

- * General Internal Medicine - 200h - André Scheen
- * Cardiology - 200h - Luc Piérad
- * Diabetes, nutrition and metabolic illnesses - 200h André Scheen
- * Endocrinology - 200h - Albert Beckers
- * Gastroenterology - 200h - Jacques Belaïche
- * Hematology - 200h - Georges Fillet

- * Medical Oncology - 200h - Georges Fillet
- * Immunology-transplants - 200h - Michel Moutschen
- * Nephrology - 200h - Jean-Marie Krzesinski
- * Neurology - 200h - Gustave Moonen
- * Pneumology - 200h - Renaud Louis
- * Rheumatology - 200h - Michel Malaise
- * Infectious illnesses - 200h - Michel Moutschen
- * Nuclear Medicine - 200h - Roland Hustinx
- * Emergencies - 200h - Vincent d'Orio
- * Geriatrics - 200h - Jean Petermans

Surgery

- * Traumatology of the locomotive system and orthopedics - 200h - Phillipe Gillet
- * thoracic and vascular surgery - 200h - Jean-Olivier Defraigne
- * Abdominal surgery - 200h - Michael Meurisse
- * Neurosurgery - 200h - Didier Martin
- * Urology - 200h - Jean de Leval

Paediatrics

- * General Paediatrics - 200h - N...
- * neonatology - 200h - Jacques Rigo
- * Ambulatory paediatrics and of the teenager - 200h - Jean-Pierre Bourguignon
- * Neuropaediatrics - 200h - Jean-Paul Misson

Gynaecology and Obstetrics

- * Gynaecology and Obstetrics - 200h - Jean-Michel Foidart
- * Gynaecology - 200h - Frédéric Kridelka

Psychiatry

- * Psychiatry - 200h - Marc Ansseau
- * Child Psychiatry - 200 h - Marc Ansseau

Other specializations

- * Ophtalmology - 200h - Jean-Marie Rakic
- * Otorhinolaryngology
- 200h - Philippe Lefèbvre
- * Dermatology - 200h - Arien Nikkels
- * Radiotherapy - 200h - Philippe Coucke
- * Pathology - 200h - Jacques Boniver
- * Clinical biology - 200h - Patrick de Mol
- * Genetics - 200h - Vincent Bours
- * Forensic Medicine
- 200h - Philippe Boxho
- * Physical and Rehabilitation Medicine
- 200h - Jean-Michel Crielaard
- * Radiology - 200h - Robert Dondelinger
- * General Medicine - 120h - Didier Giet
- * Anesthesia - Intensive Care
- 200h - Jean-François Brichant

Practical Organisation

General Medicine

Specific classes in General Medicine will be given during the fourth examination level.

Pathological Anatomy and Cytology

- * Pathological Anatomy: 1 to 2 months
- * Internal Medicine and Radiology: 1 to 4 months
- * 1 month to be chosen by the student

Anaesthesia-Reanimation

- * 1 Anaesthesia-Reanimation internship: 2 months (1 anaesthesia-reanimation, 1 in intensive care)
- * Two 2-month internships with options according to the student's personal affinities (emergency - internal medicine - pneumology, paediatrics - neonatology)

Clinical Biology

- * 1 months internship with options in medical chemistry
- * 1 month's internship with options in transfusion; the duration of the internship may be extended according to the future orientation
- * 1 month's internship in clinical haematology, in biological haematology
- * Two 1-month internships of the student's choice

Surgery

- * General surgery : general surgery 3 months, orthopaedic surgery 1 month, plastic surgery 1 month, intensive care 1 month
- * Orthopaedic surgery : orthopaedic surgery 2 months, general surgery 2 months, plastic surgery 1 month, rheumatology 1 month, remedial gymnastics 1 month
- * Plastic surgery : plastic surgery 2 months, general surgery 2 months, orthopaedic surgery 1 month, dermatology 1 month
- * Neurosurgery : neurosurgery 2 months, general surgery 1 month, orthopaedic surgery 1 month, medical neurosurgery 1 month, intensive care 1 month

Dermatology

Two possibilities:

- * option 1: 6 months research
- * option 2: internal medicine and URM - medical out-patients' clinic: 3 months, urology, ophthalmology, ENT, paediatrics, gynaecology, stomatology or maxillofacial surgery for the 3 other months

Medicine

- * URM - medical out-patients' clinic : 1 month
- * Internal medicine (ward): 1 to 3 months in the envisaged complementary masters

Nuclear Medicine

- * Nuclear Medicine : 3 months
- * X-Ray Diagnostics : 1 month
- * Oncology : 1 month
- * Medical Chemistry : 1 months

Physical and Rehabilitation Medicine

- * Neurosurgery, Internal medicine - Neurology, Internal medicine - Cardiology : 1 to 4 months

Neurosurgery

- * Neurosurgery: 1 to 2 months, choice of: orthopaedic, maxillofacial or vascular surgery
- * Neuropsychiatry, ENT, ophthalmology, anaesthesia-reanimation, URM, URC

Psychiatry

- * Psychiatry : 3 months

Child Psychiatry

- * Psychiatry : 2 months
- * Child Psychiatry : 1 month

Ophthalmology

- * Ophthalmology: 2 months
- * Two 2-month internships with options in the following disciplines: internal medicine - neurology, neurosurgery, dermatology, maxillofacial surgery

Obstetrics-Gynaecology

- * Obstetrics
- * Paediatrics, neonatology: 1 month
- * Urology: 1 month
- * Internal medicine: 1 month
- * URC: 1 month

Ears-Nose-Throat

- * ENT: 2 months
- * URM - medical out-patients' clinic or URC: 2 months
- * General surgery, maxillofacial surgery, internal medicine - neurology, neurosurgery, paediatrics according to the student's affinities: 2 months

Paediatrics

- * Paediatrics: 2 months
- * ENT: 1 month
- * Ophthalmology: 1 month
- * URM - medical out-patients' clinic: 2 months

Radiodiagnostic

- * URM-polyclinique médicale : 1 mois
- * URC : 1 mois
- * Anatomie pathologique : 4 mois
- * Radiotherapy: 2 months
- * Internal Medicine - haematology: 2 months
- * Pathological Anatomy and Cytology: 2 months

Urology

- * Urology : 2 months
- * Abdominal Surgery : 1 month
- * Internal Medicine - nephrology : 1 month
- * Gynaecology : 1 month
- * Radiology : 1 month

Forensic Medicine

- * Forensic Medicine : 1 to 4 month(s)
- * 2 months chosen by the student

Research

Following the agreement of a departmental head (clinical, paraclinical or fundamental sciences) and the approval of the Board of Studies, a complete internship plan including 2 to 6 months research during the 3rd and 4th épreuves may be accepted. The file including the curriculum vitae of the interested party and the description of the research project must be submitted to the Board of Studies.
