What is the project?

Projects are offered by the departments (Cognitive sciences, People and Society) and managed by them according to the options/modules chosen. It could involve

- * participating in the department's research activities,
- * support follow up for field work,
- * or simulating activities (role playing, interviews etc..)

Les crédits associés (10 crédits) comprennent la préparation aux activités (lectures, séances d'information ou de formation), la participation aux activités (y compris les traitements de données éventuels), la rédaction d'un rapport individuel et l'assistance aux séances de synthèse.

Le rapport fera l'objet d'une évaluation formative, ce qui veut dire que l'étudiant pourra retravailler son rapport afin de l'améliorer. Pour cette raison, le rapport devra être rendu au plus tard avant les vacances de Pâques. Le choix du projet se fera en début d'année académique via le site intranet de la faculté (www.fapse.ulg.ac.be).

Notice : For the Criminology School project, please ask the Criminology School.
