

First Year

Compulsory courses

PSYC1035-2 *In-depth questions on documentary research and exploration of scientific literature* - 15 - - 3
Paul THIRION

YTRA0006-1 *Research Work* - N... - - - 6

Students are initiated in research work under the supervision of a promoter. This work aims to prepare them for the future dissertation to be written in the second year of the masters. The promoter is free to choose the methodology to be applied, taking into account the specificities of the domain (for instance: integration in a research team; theoretical scientific work; other). Therefore, this initiation work relates to a project, promoter, deliverable (report) and a contractualised assessment. This assessment must be formative.

Optional courses

Choose between 1 and 2 courses, totalling 6 credits, amongst :

- [...] In the list of courses below
- [...] In the program of another faculty with the agreement of the president of the jury.
- [...] in the program for the master's degree in Psychological sciences in professional focus
- [...] in the program for the master's degree in Psychological sciences in research focus

Ideally, students will choose a course every quadrimester.

Notice : for the two years of the masters degree, students may choose a maximum of two courses among the programmes from the other faculties, providing they have received the Board of Studies' approval.
