Presentation

This training aims to provide students the theoretical and clinical bases to the diagnosis and the treatment of disease and oral mucosa.

The theory teaching is structured around 3 modules :

- * common module with the university certificate of skills in oral rehabilitation to enable the student to master the different aspects of complex oral rehabilitation
- * common module with the university certificate of skills in oral implantology
- * specific module to obtain detailed knowledge necessary for the practice of periodontics.

A 80 % attendance at "Interactive seminars relating to independent practice (70h)" is compulsory to get the validation.

Duration

- * Three years of studies.
