### Presentation

Acquiring theoretical knowledge, clinical experience and practical and technical training to practice nuclear medicine in respecting European demands in this area.

### Duration

- \* Five years of study: two years of basic study (FUS) and three years of specialised education.
- \* The two first years of the complementary Masters in Nuclear Medicine correspond to the first two years of the complementary Masters in Internal Medicine. Candidates must meet the conditions, for each year, of this complementary Masters, both in terms of the courses and the evaluation tests.

### Collegiality (for the first two years of basic training in internal medicine)
