Presentation

Doctors and pharmacists specialising in clinical biology must carry out a one-year placement and follow the following courses, which will form the basis of the examination at the end of the placement. A longer placement may be required for any specialists who have not conducted the number of in vitro tests required by the law. Specialist candidates in clinical biology are permitted to carry out the training described above during their basic specialisation. Specialists can retain their initial approval by acquiring the certificate in in vitro nuclear medicine.

Special conditions of access / students concerned

Cette formation s'adresse aux médecins / pharmaciens spécialistes ou en cours de spécialisation en biologie clinique.

Les personnes intéressées sont invitées à prendre contact avec le responsable de la formation pour examen de leur candidature.

Duration of the training

- One year (60 ECTS)

- Authorized compulsory division with the approval of the jury.
