Information

Mr Jean-Yves REGINSTER

Epidemiology and public health

Block B23 - CHU - 4000 Liege

Phone number : 04/366.25.20

Fax number : 04/366.28.12

E-mail address : jyreginster@ulg.ac.be

Presentation

The objective of the Certificate is to provide holders of a Masters with the scientific knowledge enabling them to obtain skills in the field of Clinical Epidemiology and Health Economics. The approach will combine theoretical aspects of these disciplines with internships in research environments and within the pharmaceutical industry. Students holding this Certificate will have expertise in fundamental, applied, qualitative and quantitative data on the economic bases of public health. This Certificate aims to help holders integrate into a rapidly developing labour market, including the pharmaceutical industry, research centres in health economics and clinical epidemiology, federal, regional and European research bodies, and national and international non-governmental organisations.

Special conditions of access / students concerned

This course is aimed at the holders of a master in medicine, dental sciences, pharmaceutical sciences, biomedical sciences, physiotherapy and rehabilitation, veterinary medicine, economics, business management, business engineering.

Students holding degrees not mentioned above may submit their application form to the President of the Jury.

Interested individuals should contact the head of the course to discuss their application.

Duration of the training

* One year of study (60 ECTS).

* Authorized compulsory division with the approval of the jury.
