

## A single year

### The Higher Education degrees concerned by this preliminary programme are :

- \* Bachelor in Agronomy
- \* Bachelor in Chemistry
- \* Bachelor in Computer Management
- \* Bachelor in Computer and Systems
- \* Bachelor in Agricultural Sciences
- \* Bachelor in Industrial Sciences

### The university degrees concerned by this preliminary programme are :

- \* Bachelor in geological sciences
- \* Bachelor in Medicine
- \* Bachelor in Veterinary Medicine
- \* Bachelor in Dental Sciences

### Programme

The preliminary programme will be determined depending on the previous training of the student in order to prepare him/her to choose a module in the 1st year of the Master.

The following graduates will follow the preliminary programme leading to the Master in Computer Sciences (<http://progcours.ulg.ac.be/cocoon/programmes/AEMINF01.html>) :

- \* Bachelor in Computer Management (High Schools)
- \* Bachelor in Computer and Systems (High Schools)
- \* Bachelor in Industrial Sciences (High Schools)

The following graduates will follow the preliminary programme leading to the Master in Chemistry (<http://progcours.ulg.ac.be/cocoon/programmes/SEMCHI01.html>) :

- \* bachelor in chemistry (high school)
- \* bachelor in geological sciences (universities)

The following graduates will follow the preliminary programme leading to the Master in Biochemistry, Cell and Molecule biology

(<http://progcours.ulg.ac.be/cocoon/programmes/SEMBMC01.html>) :

- \* Bachelor in Agronomy (Higher School)
- \* Bachelor in Agricultural Sciences (Higher School)
- \* Bachelor in Medicine (University)
- \* Bachelor in Veterinary medicine (University)
- \* Bachelor in Dental Sciences (University)
