

A single year

The Higher Education degrees concerned by this preliminary programme are :

- * Bachelor in Agronomy
- * Bachelor in Chemistry
- * Bachelor in Agricultural Sciences
- * Bachelor in Industrial Sciences

[...] The programme of the preparatory year, of 60 credits maximum, will be established by the Masters in Oceanography Jury on the basis of the student's previous education: this programme will allow the student to acquire the necessary basic knowledge in the areas judged useful (statistics, computing, biology, chemistry, physics, etc.)
