Presentation

The Advanced Master in Clinical Biology (health sciences) provides a theoretical and practical training in clinical biology. After this training, the candidate will be able to control the entire process of analysis of biological products for accurate diagnosis of disease, assess prognosis or therapeutic response or in regard to the transferable nature .

This training includes theoretical and practical courses in the three core subjects of clinical biology that are medicinal chemistry, hematology and microbiology. Students also have internships in an appropriate laboratory hospital, under the guidance of tutors officially recognized by the Ministry of Public Health.

Duration

- * Five years of study: two years of basic study (FUS) and three years of specialised education.
- * Spreading the courses over several years is possible with the approval of the Board of Studies. Nonetheless, when the student has also registered a training programme plan, it is not possible to spread the specialisation over several years.

Collegiality

Coordinator : André GOTHOT

Etienne CAVALIER, Corinne CHARLIER, Christiane GERARD, Marie-Pierre HAYETTE, Pierette MELIN.

In addition to the teachers, the following persons contribute to the teaching :

Raphaël DENOOZ, Vinciane DIDEBERG, Nathalie DUBOIS, Jeanine HALENG, Frédéric LAMBERT, Françoise LUYCKX, Pierre PETERS, Nicole SCHAAP, Françoise TASSIN.
