For the ULg :

Mr Renaud LOUIS

Pneumology

Block B35 - CHU - 4000 Liege

Phone number : 04/366.78.81 - Fax number : 04/366.88.46

e-mail address : r.louis@ulg.ac.be

Presentation

The aim of the training is to acquire and improve the knowledge and skills of health professionals by helping stop and manage smoking in various walks of life.

The teaching relates to tobacco and its use. It includes aspects of `Health Promotion, `Public Health, and legislation. It prepares for specialised clinical work in stopping smoking and research in this field. Relationships and similarities with other addictions are also addressed.

Special conditions of access / students concerned

This training is aimed at holders of degrees in medicine, nursing, midwifery, pharmacy, physical therapy, dentistry, ergotherapy, and dieticians in reference to article 78 of the INAMI, and also to holders of Masters in Psychology and students in their final year of these disciplines.

Students who hold a degree awarded outside Belgium should produce an equivalent degree.

The course is aimed at health professionals and psychology graduates. A background in medicine and/or psychology is therefore indispensable. The theoretical and practical foundations of the course will involve a multidisciplinary approach.

Duration of the training

The course (15 credits) includes:

- * 7 day-long seminars, i.e. 49 hours of class split over seven Saturdays;
- * 3 days of internship in an approved Centre.

Courses programme

Collegiality:

The team consists of 25 speakers selected by the CSIGT on the basis of their experience on the ground and their pedagogical competences.

Compulsory courses

MCER0005-1	<i>Seminars</i>					3
	- <i>part I : Theory teaching</i> - COLLÉGIALITÉ - [12h SEM]	-	-	[+]
