Mr Jean-Yves REGINSTER

Epidemiology and public health

Block B23 - CHU - 4000 Liege

Phone number : 04/366.25.20

Fax number : 04/366.28.12

E-mail address : jyreginster@ulg.ac.be

Presentation

The objective of the Certificate is to provide holders of a Masters with the scientific knowledge enabling them to obtain skills in the field of Clinical Epidemiology and Health Economics. The approach will combine theoretical aspects of these disciplines with internships in research environments and within the pharmaceutical industry. Students holding this Certificate will have expertise in fundamental, applied, qualitative and quantitative data on the economic bases of public health. This Certificate aims to help holders integrate into a rapidly developing labour market, including the pharmaceutical industry, research centres in health economics and clinical epidemiology, federal, regional and European research bodies, and national and international non-governmental organisations.

Special conditions of access / students concerned

This training is intended for those with a master's in medicine, dentistry, pharmacy, biomedical science, physiotherapy and rehabilitation, veterinary medicine, business engineering.

Students with any other type of non-cited diploma may submit their file to the chairman of the panel.

Those who are interested are asked to contact the course leader, who will consider their application.

For this training, students are required to attend the lectures and sit the exams. This is not a distance-learning course.

Duration of the training

* One year of study (60 ECTS).

* Authorized compulsory division with the approval of the jury.
