LANG1990-2	<i>English C applied to speech therapy</i> (english language) - ISLV, Evgueniya LYU	TA	-	45	-	5

What is the project?

It could involve

- * participating in the department's research activities,
- * support follow up for field work,
- * or simulating activities (role playing, interviews etc..)

The associated credits (10 ECTS) include a preparation to activities (lectures, briefings or training), participation in activities (including any treatments of data), writing an individual report and assistance to summary sessions.

The report will be a formative evaluation, which means that the student will be allowed to rework his/her report in order to improve it. For this reason, the report should be made before the Spring holidays. The choice of the project will be made at the beginning of the academic year via the intranet of the faculty (<http://www.fapse.ulg.ac.be>).
