#### Research and training

A practical placement (conducting four evaluations) A research thesis with a theoretical part on a specific theme (literature review and development of a scientific issue) and including in addition two evaluations relating to different audiences (children, delinquent adults, victims, neuropsychology ...) The thesis is an original written document which must also be presented during an oral defence before a jury comprising no less than three people.

#### Exams and assessments

An oral exam will be organised for each module.

The overall evaluation of the certificate will take into account the results of the oral examinations in the first year and the oral examinations organised at the end of each module, the grade awarded by the head of the internship for the practical internship and the grade given to the thesis (written work and oral defence).
