Legal framework

A.M. of 03/05/1999 (MB : 07/08/1999) : Ministerial decree setting out the criteria for approving generalist doctors.

Presentation

Training for a general doctor in Belgium lasts at least three years and includes a theoretical part and a practical part, with a minimum internship of six months in a hospital and six months in the surgery of a general medical doctor acting as the internship supervisor. This training starts when the student successfully passes the sixth year of the doctor's training cycle (3rd Masters).

During the seventh year (4th Masters) the following training cycle should be followed:

- * theoretical training in general medicine (at least 200 hours, with a minimum 80% attendance rate)
- * compulsory internships include six months in a recognised hospital and six months in the surgery of an approved general medical doctor.

The complementary Masters in General Medicine begins after the doctoral degree has been obtained.

The complementary Masters includes:

- * two years of study for students holding the Certificate (theory courses and 12 months of specific internships).
- * three years of study for students having following theoretical courses (with proof of having successfully passed the course) but who have not carried out all the internships required.

Special conditions of access

This course is aimed at holders of a doctorate (Masters) in medicine who are authorised to practice in Belgium as well as students in the 4th year of the doctorate (Masters) in medicine.

Interested individuals should contact the head of the course to discuss their application.

Holders of non-EU diplomas should contact the Admissions Department (Certificate of Partial Specialisation Training).

Duration of the training

- * One year of study (60 ECTS)

Courses programme

Collegiality :

Coordinator: Didier GIET

Jean-Luc BELCHE, Geneviève BRUWIER, Philippe BURETTE, Pierre FIRKET, Christian MONTRIEUX, Marc VANMEERBEEK.

Block 1
