Block 1

The training lasts 18 months.

Compulsory courses

HULG9070-1	<i>Module 0 : Numerical methods : Marine Modelling</i> (english language) - Song Giang LE		30	-	-	3
ACER0024-1	<i>Module 1 : Design of sustainable river control and navigation structures</i> (english language) - Cong Van TRINH	TA	40	40	-	6
ACER0025-1	<i>Module 2 : Numerical modelling of hydraulic flow</i> (english language) - Song Giang LE, Thu Hien NGUYEN		40	40	-	6
ACER0026-1	<i>Module 3 : Physical modelling in river and waterways</i> (english language) - Van Song PHAM		40	40	-	6
ACER0027-1	<i>Module 4 : River engineering</i> (english language) - Thanh Hai PHAM , Minh Cat VU		40	40	-	6
ACER0028-1	<i>Module 5 : Foundation of hydraulic structures</i> (english language) - Hong Nam NGUYEN		40	40	-	6
ACER0029-1	<i>Module 6 : Dam engineering and dam safety</i> (english language) - Van Cong MAI		40	40	-	6
HULG9083-1	<i>Module 7 : Coastal Engineering</i> (english language) - Minh Cat VU		40	40	-	6
ATFE9003-1	<i>Training and final dissertation</i> (english language) - COLLÉGIALITÉ	TA	-	-	-	15
