Conditions of access

This training is aimed at:

- those with a degree in physiotherapy (bachelor's or master's) or medicine from a Belgian institute of higher education (university or college of higher education).
- those with a Belgian qualification in physiotherapy (bachelor's degree) in the context of short-cycle higher education, within the framework of previous legislation. In this case, applicants must submit a file with a view to the validation of their personal and professional experience gained over a minimum of two years by the course leaders
- applicants with a similar qualification or degree in physiotherapy from outside Belgium. In this case, applicants must submit an application file to the course leaders

The compulsory prerequisites (in anatomy, physiology, biomechanics and biostatistics) are required of all participants. These conditions are necessary in order to meet IFOMPT requirements.

Registration fee

- 3000 EUR / year
- about 1500 EUR / year if using training vouchers (approved by the Walloon Region)
