The "Master in Environmental Science and Management, specialised focus" may be followed in a specific format entitled "Master in Environmental Science and Management, specialised focus, offered as a joint degree with the University of Luxembourg".

Students enrolled in this joint degree programme from the first year (Block 1) will take 30 credits of compulsory courses at ULiège during the first term of the first year (no optional courses). During the second term of the first year, they will take 30 credits of courses from the Master in Sustainable Development (Energy and Environment track) at the University of Luxembourg, in Luxembourg, taught in English.

Only students enrolled in the joint degree programme will have access, in the second year, to the module "Renewable energy and sustainable buildings".

The full list of courses included in this joint degree programme with the University of Luxembourg is available at the following address:

https://www.programmes.uliege.be/cocoon/20252026/programmes/S2SENV02_B.html

With the agreement of the jury and for duly justified reasons, courses from the Master's programme in Environmental Science and Management (specialised focus) may be replaced by courses chosen from other programmes within the Faculty of Science, other Faculties, or other Universities.

Block 2

Notice : The list of refresher courses aimed at students who have direct access to the 2nd year of the Masters with a possible addition to the programme is available from the Jury or from the student services of the Faculty of Sciences.
